

# Consultation fees

The Microbiome Group. fees from 1 November 2026.

Our fees reflect the clinical work that happens outside your consultations, including reviewing your results and preparing your written treatment plan. We price each appointment for the work it involves rather than charging a flat rate across all consultations, because some clients need more frequent testing and results reviews than others.

| Appointment                                                                                                                               | Duration   | Fee  |
